

# Twisted Little Star

Bertine Zetlitz

I took your time  
Like I've always been trying to  
Trying to  
Was out of mine  
So easy for me to do  
Yeah, to do

Just needed to be powerful and sweet  
Just needed to make your world complete  
Just needed more than you could give  
I've got lots of fancy tricks  
To make this last forever

[Chorus]  
Will you still remember  
Twisted little star  
Darker shining  
Silently surrender  
Twisted little smile  
Twisted's gonna last a while

I made you weak  
Like I know I am supposed to do  
Yeah, to do  
You never speak  
'Cause you know I don't want you to  
Yeah, you do

Just needed someone fresh to hold my hand  
Just needed someone new to understand  
Just needed a face to ease the flow  
There must be a million ways  
To make this last forever

[Chorus]

Just needed every smile that you could give  
Just needed every lie that you could give

[Chorus]
