

you told me to walk your way  
when i followed for that simple reason  
our fate was to stay  
together 'til our souls departed

your will was my word  
you tried to go against my speach  
my word was you'd stay  
together 'til our souls departed

you had no choice  
was that my destiny  
you belonged to me  
in sickness and in health  
i was your puppeteer  
was that the way it should be  
together 'til our souls departed

i would never change it  
not for anything in the dark world  
thank you for those days  
i will keep them in the dark side of my mind

the day that you changed  
i will condemn the day 'til i die  
what about those words you said  
together 'til our souls departed

you had no choice  
was that my destiny  
you belonged to me  
in sickness and in health  
i was your puppeteer  
was that the way it should be  
together 'til our souls departed

the rain clears my thoughts  
i embrace it like the night i live in  
i'm rather lost than possessed  
you will learn the rules  
this life is just a game we're playing  
and we will lose  
there is no way to move the pieces

you had no choice  
was that my destiny  
you belonged to me  
in sickness and in health  
i was your puppeteer  
was that the way it should be  
together 'til our souls departed  
i will keep them in the dark side of my mind
