

# California Nights

Best Coast

I stay high all the time  
Just to get by  
I climb into the sky  
And my eyes they cry

California nights  
Make me feel so happy  
I could die  
But I try to stay alive

I never wanna get so high  
That I can't come back down  
To real life  
And look you in the eyes and say  
Baby you're mine

Fading back and forth  
I fly through my mind  
I fade the way I've known  
But have I really gone

California nights  
Make me feel so happy  
I could die  
But I try to stay alive

I never wanna get so high  
That I can't come back down  
To real life  
And look you in the eyes and say  
Baby you're mine

I never wanna get so high  
That I can't come back down  
To real life  
And look you in the eyes and say  
Baby, oh baby you're mine
