

# The Only Place

Best Coast

We were born with sun in our teeth and in our hair  
When we get bored we like to sit around, sit around and stare  
At the mountains, at the birds, at the ocean, at the trees  
We have fun, we have fun, we have fun when we please

We wake up with the sun in our eyes  
It's no surprise that we get so much done  
But we always, yes we always, we always have fun  
Yes we always, yes we always, we always have fun

Why would you live anywhere else?  
Why would you live anywhere else?  
We've got the ocean, got the babes  
Got the sun, we've got the waves  
This is the only place for me

So leave your cold behind  
We're gonna make it to the beach on time  
Yeah leave the cold behind  
We're gonna make it to the beach on time

Why would you live anywhere else?  
Why would you live anywhere else?  
We've got the ocean, got the babes  
Got the sun, we've got the waves  
This is the only place  
This is the only place  
This is the only place  
This is the only place for me
