

# Out From The Cold - Straight To Hell

## Bestial Mockery

Armed with a force so divine and strong  
We march out for war  
To forever destroy beliefs of higher powers  
Churches burn and religion falls

From the ashes a stronger race arise  
Welded together by lost ideals and mutual hate  
A phoenix with an eternal flame  
Forever burning so bright and red

Freedom of choice our only belief  
Your holy society now turned into shit  
Out from the cold, straight to Hell  
A chaosfury annihilates the human race

Fuck

When the Final War comes  
Everyone shall pay  
Pain, suffering, fear and Death  
None will escape our Wrath

Gasclouds surrounds our desolate earth  
Our goal is near, Armageddon closes in  
A shattered world with no more gods  
The Final Slaughter, to Hell we ride

Freedom of choice our only belief  
Your holy society now turned into shit  
Out from the cold, straight to Hell  
A chaosfury annihilates the human race

Fuck
