## Is That Too Much To Ask

Wish me luck give me somethin' Help me out and I'll go there Wish me luck give me somethin' Help me out and I'll go there

All I want is a brand new truck With one eyed jacks and beginners luck The doctors script for the perfect drug Get it all while I can

But I got no money and I got no man I drive around in a beat up van I ride on coffee and percodan Get it all while I can, get it all while I can

Is that too much to ask? Come on now

So people tell me to clean up my mess Like I was sweet sixteen in a dirty dress But I'm wiser now so I must confess That I get it all while I can, yeah I get it all while I can

Is that too much to ask? Is that too much to ask? Somebody told me Is that too much to ask? Is that too much to ask? Just make it real and make it last

Someday maybe I'll understand This crazy old life is in my hands Someday maybe I'll figure it out Somebody help me anybody tell me

Wish me luck give me somethin' Help me out and I'll go there Wish me luck give me somethin' Make it real and make it last

Is that too much to ask? Is that too much to ask? Somebody told me Is that too much to ask? Is that too much to ask? Just make it real and make it last
