So suddenly it rolls by again
Soft as a breeze and light as the wind
Don't say goodbye and don't dry these tears
If I could fly we'd fly away from here

So don't let go
Just come along now
Just say so
It won't be long now
It's all right
This ain't no lie
It's right on time

Petals of rose I touch your hair Heaven knows I love you here Beautiful smile covets the time I feel so fine I feel so fine On my way Come along and stay

When I was young just a little girl I'd sing to the sun and dream with the world Now I got a suitcase full of memories If I could show you maybe you'd stay with me

Stay with me

So don't let go
Just come along now
Just say so
It won't be long now
It's all right
This ain't no lie
It's right on time

Petals of rose I touch your hair Heaven knows I love you here Beautiful smile covets the time I feel so fine I feel so fine On my way Come along and stay
