Take Me Back

Betraying the Martyrs

Take me back to when I still felt young Take me back to when this all begun

No I never ever understood and I never ever even tried I've always felt so far from all that shit Always been blinded by my precious pride Crawling, falling

On my hands and knees at the feet of the death gods

Never thought it would be me to trip and fall - never felt like I was falling at all

Never thought it would happen to me - never thought this would happen

Until I ate the floor at the rock bottom looked up to see them laughi

At the scratches that I'd left on the wall

Take me back to when I still felt young When I still had light in my eyes and a sweetness on my tongue Take me back to when this all begun When the fire still burned in my eyes, before it all went wrong

I never knew

Never thought this would ever be me - but then I pulled my head out t

Never thought I would ever be free - saw in the mirror an excuse of a

Never thought this would ever be me - accepted help and accepted myse

Never thought I would ever be free

Put my feet on the ground and took my heart off the shelf

I needed help

Running circles in my mind

Tossing and turning in my bed

I've lost my fucking hair and I'm losing my head

Take me back to when I still felt young

When I still had light in my eyes and a sweetness on my tongue Take me back to when this all begun

When the fire still burned in my eyes, before it all went wrong

Crawling, falling

Just when I thought my life had fallen through the cracks I saw the light, now I'm alive

No longer screaming

Take me back to before this all went wrong

See the fire in my eyes - a reflection of the sun

Now I'm back before this all went wrong

See the fire in my eyes - a reflection of the sun Tištěno z pisnicky-akordy.cz Sponzor: www.srovr
