

A Better Day

Better Luck Next Time

Let me stay here for a while, and try to figure out
I've been here so many times before, and everything's the same
As I go making my way into the dark,
I lose control, but at the end of the tunnel I see a spark

I know when you show up I'm gonna' be ok
You'll show me tomorrow is a better day

Let me stay here for a while, and try to figure out
I've been here so many times before, and everything's the same
Where I go, things never were this way
Now that it's done and gone, all that I know
is that the end of the tunnel leaves nothing for me

I know when you show up I'm gonna' be ok
You'll show me tomorrow is a better day
When all is broken and we don't seem to listen
We're alone, you know it
We'll be here, I'll keep holding on

Come rescue me my dear, please hurry
You'll see it all makes sense in time
We're on the edge and close to falling
If we don't make it through tonight, then it's goodbye
