

A Night To Remember

Betty Who

Looking at your face
Looking at that place
Looking at us there
Felt it in my chest
Felt it in my breath
Felt it everywhere
Flashing lights and sleepless nights
I swore I'd never give you up
Midnight faded
I was waiting
For the time to give it up

A night to remember
The rain was pouring down the bathroom window
A night to remember
I let you touch me like a scene in slow-mo
And I had a hopeless teenage heart I lost back then
A night to remember
I always thought that I would see your face again

When the morning came
I could hear my name
Coming from the bed
Laying on your side
In the early light
I could see it in my head
Naked, coffee, hands still on me
I swore I'd never give you up
Searching for you
Wanting more you
Think it's time I gave you up

A night to remember
The rain was pouring down the bathroom window
A night to remember
I let you touch me like a scene in slow-mo
And I had a hopeless teenage heart I lost back then
A night to remember
I always thought that I would see your face again

Flashing lights and sleepless nights
I swore I'd never give you up

What a night to remember
The rain was pouring down the bathroom window
A night to remember
I let you touch me like a scene in slow-mo
And I had a hopeless teenage heart I lost back then
A night to remember
I always thought that I would see your face again
