

Just Thought You Should Know

Betty Who

3AM and all my friends are looking at me sideways
Give me a minute
Maybe I'm too drunk and I'm not doing this the right way
But let me finish
I'm so happy that you're happy with her, wait that's a lie
Almost called you, tried to text you like a million times
3AM but I don't care, I have to tell you some day
The way I'm feeling

Cause I can still feel you
You're everywhere
I can taste your lips
Hear your voice in my head
And I know that I should shut my mouth
And just hang up the phone
But I still want you
I just thought you should know

Bet you're in the kitchen hoping she don't hear you whisper
Just admit it
Do you ever think of me when you lean in to kiss her
Do you miss it?

Cause I can still feel you
You're everywhere
I can taste your lips
Hear your voice in my head
And I know that I should shut my mouth
And just hang up the phone
But I still want you
I just thought you should know
I just thought, I just thought
I just thought you should know

I'm so happy that you're happy with her, wait that's a lie
Almost called you, tried to text you like a million times

Cause I can still feel you
You're everywhere
I can taste your lips
Hear your voice in my head
And I know that I should shut my mouth
And just hang up the phone
But I still want you
I just thought you should know
I just thought, I just thought
I just thought you should know
