

Old Me

Betty Who

Wake up and I'm feeling fly
This morning feels like summertime
Naked in my living room
And just like that I'm over you

Prayed for a guiding light
Wished on a star
I guess you're not alright
Until you are
I went to bed last night
With a broken heart
Now something's different

Sometimes I wonder what you'd say
If you could see my smiling face
Here I am I made it through
This is me forgetting you

Prayed for a guiding light
Wished on a star
I guess you're not alright
Until you are
I went to bed last night
With a broken heart
Now something's different
Hey

I'm feeling like the old me
No you cannot control me
I earned these blessings wholly
Rain on me
They got me singing la la la la
I'm feeling like the old me
She's drunk at karaoke
(Ladies do you feel me, ladies sing it with me)
God damn you should have told me
The old me, she got me singing
La la la la
