

# Silas

Betty Who

Silas says he'll take me far away  
You can tell he means it by the look on his face  
Run until it hurts and every bird is far behind us, my Silas

Silas says my name like it's a prayer  
The quiet reference hanging in the air  
And as for demons running round my mind  
You'll never find us, my Silas

How could I deserve him when I could never hurt him?  
All that I can see is how kind he is to me

On the nights I cried til I can't breathe  
Silas stays with me until I sleep  
Hands that hold my heart so tenderly  
Could never bind us, my Silas

I'm hopelessly romantic  
And hopefully he can stand it  
All that I can know  
Is I never want to let him go

Silas will be back for me one day
