

# Whisper

Betty Who

Why do you gotta be, gotta be  
Gotta be bad for my health?  
Even my therapist telling me  
You're the reason I need help  
Every time you come around  
I'm back at square one, square one  
How do you get in my, get in my  
Get in my head like that?  
It's like a button you push  
And my body keeps bring me back  
Heaven knows I'm wrapped around  
The tip of your tongue, your tongue

It's so heartless  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like this

Come take a ride, don't say goodbye, let's run away  
Swear on my life, let's roll the dice and leave today  
Straight from your lips into my soul, I can't resist  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like

Yeah, I've been trying to, trying to  
Trying to kick the habit  
It's like you know that I'm done with you  
So you come running real quick  
Even when I'm staying strong  
You hit me head on, head on

It's just one kiss  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like this

Come take a ride, don't say goodbye, let's run away  
Swear on my life, let's roll the dice and leave today  
Straight from your lips into my soul, I can't resist  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like this  
Come take a ride, don't say goodbye, let's run away  
Swear on my life, let's roll the dice and leave today  
Straight from your lips into my soul, I can't resist  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like this

Bring me back to you  
(When you whisper in my ear  
When you whisper in my ear like this)  
Whisper in my ear, whisper in my ear, no  
(When you whisper in my ear  
When you whisper in my ear like this)  
(Come take a ride, don't say goodbye)

Come take a ride, don't say goodbye, let's run away  
Swear on my life, let's roll the dice and leave today  
Straight from your lips into my soul, I can't resist (I can't resist)  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like this  
Come take a ride, don't say goodbye, let's run away (Oh)  
Swear on my life, let's roll the dice and leave today (Ooh ooh)  
Straight from your lips into my soul, I can't resist  
When you whisper in my ear  
When you whisper in my ear  
When you whisper in my ear like this
