Jesus

Something in the way she moves makes me think of all the things I missed and something in the way she looks at me makes me wonna lay down, open my mouth and get kissed.. yeah...

And she looks like I think Jesus would have looked And she looks like I think Jesus would have looked Now I know why Merry and the boys got (3x) hooked.

Something in the way that she walks makes me wonna change the way I think and something in the way she talks to me makes me order up another drink so she can get in my ping yeah...

And she looks like I think Jesus would have looked And she looks like I think Jesus would have looked Now I know why Merry and the boys got (3x) hooked.

Touch me (7x) like noother Hold me (7x) like noother Love me (7x) like noother... like noother...

Something in the way she just is makes me wonder who the hell I've been and something in the way we are makes me wanna dive down into a brand new sin yeah...

And she looks like I think Jesus would have looked And she looks like I think Jesus would have looked Now I know why Merry and the boys got (3x) hooked. yeah.. uuu...
