

## Is It Only Me?

Beverley Craven

It's just a fantasy  
I don't really mean the things I'm thinking  
They just come to me  
Like a dare that I can't share  
In case you think that I'm not all there

I've got to keep my karma clean  
'Cos everything comes back to me  
It must be insecurity that keeps me weak  
Or gives me the edge I'm looking for

Is it only me?  
When I'm doing things I keep a tally  
Safety in numbers and in my routine  
Like OCD  
I'm convinced someone's watching me

I want to be alone so much  
And yet I long to stay in touch  
A melody is stuck in my head  
And it won't go  
And now I forget what I came here for

If I say it  
I'm gonna jinx it  
If I keep it close  
It'll grow  
Can you blame me for keeping secrets?  
Why, oh why, do I just get so overemotional?  
They should take me away  
I'm all over-emotional  
Is it only me?

If I think it  
You never thought it  
When I hate being who I am  
Little phrases become symbolic  
And my normality is such a sham  
They should take me away  
I'm all overemotional  
Is it only me?
