Gold

Beverley Knight

Some people never recognise it Though it's right before their eyes And shines in all its glory They never ever see They choose something that looks just like it And it may glitter all the time But gold it will never be I guess you never held on to quality Or you woulda recognised by now Something so special so true When it's standing right in front of you I'm gold babe Catch me in the slipstream Passing by the fools who just don't know Pure gold babe You're looking at the real thing If you knew my worth you wouldn't let go (2x) Oh no! Gold lies in rivers undiscovered Hidden from the sight of those

Who don't know what to look for (They ain't never gonna find it) Sometimes the value is uncovered Other times it's cast aside By those who are just unsure

I guess you never held on to quality Or you would of recognised by now Something so special so true When she's standing right in front of you

All the things you failed to see Separated you from me I decide who wins my time And who comes inside yeah Cause what is true and what is real Finds a way of being revealed I don't have to even try Cause I'm certified;-pure;-
