

# No Man's Land

Beverley Knight

Surfing channels  
Trying to fool my feelings  
It's like they're still resisting  
Those little demons  
Trying to leave it  
But they keep on playing over again

These 4 walls share my conversations  
Wish I could tell someone  
But my voice keeps breaking  
So ashamed you're still living rent free in my brain... in my brain

I'm saying  
I can't move on... stumbling 'round  
Hanging on... but going down...  
No man's... no man's land

People say  
Keep your head up  
Watch the sun rising  
Everybody has big advice for me  
But all I wanna know is  
What the hell went wrong... oh what went wrong

But I will rise to start again  
I have no doubt  
But I just don't know when  
Sometimes I can change anything  
But then again...
