

Same

Beverley Knight

Still got my fire, I'm never cold
It burns within me, It's taken hold
Still finding mountains , I've yet to climb
I still get lonely, But never mind

I'm the same
Same
As I
As I ever was
The same
As I
As I ever was
True to the last word baby
Still making myself heard baby
I'm the same
Yeah
I'm the same
Yeah

Still got my family, Old friends of mine
I know they still will stand, The test of time
Still feel my history, My future too
Black gold and green, Red white and blue

[R (2x)]

Still got my temple. Each curve and line
Those who can't get with that , Ain't worth my time
Can't compromise no, That would be strange
I'm still that Aries lady, ain't nothin' changed
