

Delirium

Beware of Darkness

You cannot see things as they are
You're blind to the hell you drag me through
Possessed it's taken full control of you
You're not the one I fell in love with a lifetime ago

So please, see through your delirium,
Wake up to see the monster that you've become
Release, there's nothing more that I can do
You're killing yourself and all the ones who love you

All along I thought, I thought I've been controlling you
But now I see, that it's you controlling me

So please, see through your delirium,
Wake up to see the monster that you've become
Release, there's nothing more that I can do
You're killing yourself and all the ones who love you

Please, please, just let me be, I don't want your salvation
Please, please, just let me be, I don't need your salvation

So please, see through your delirium,
Wake up to see the monster that you've become
Release, there's nothing more that I can do
You're killing yourself and all the ones who love you
