

Rewind

Big Audio Dynamite

The troop was weak and weary
Rations running low
Mission seemed impossible
We had to save the show

Lost our map and compass
Canteens got a hole
David took Goliath
A little rock and roll

Rewind operator
Gonna kill `em with sound
Bawling out murder
And selector come down

Just like General Custer
There`s indians all around
Wagon train`s on fire
War cry bugle sound

Never had to worry
When the chips were down
Held each others hands
And we stood our ground

Rewind operator
Gonna kill `em with sound
Bawling out murder
And selector come down

Rewind operator
Gonna kill `em with sound
Bawling out murder
And selector come down

Better beans and freedom
Than cake and slavery
As long as were together
That`s good enough for me

Every inch a battle
Had to see it through
With some love and laughs
And each other too

Rewind operator
Gonna kill`em with sound
Bawling out murder
And selector come down

We might be mad or stubborn
We`ll hold our heads upright
The cavalry`s a coming
To save the show tonight
Just like in a movie
The ending must be good
We`ll ride off into sunset

Just like I said we would

Sing

Gonna kill`em with sound

Ring the alarm...
