Big Boi

If you don't me by now
If you don't me by now
If you don't me by now
If you don't me by now

Don't know
Don't know
Don't

When I'm in a bad feel yea
The pain when I'm...
Thinking 'bout it yea
I will not fall
Beat the times, thank God
Grandmother...
Great grandmamma, thank God
My daddy's gone

If you don't me by now
If you don't me by now
If you don't me by now
If you don't me by now

Don't know
Don't know
Don't

Hey
You in the stars
Your face
I still stand tall
I take up with ya'll hmm
The city I was born - LA
Lights
La la la la
Lights turned low
Running along the runway
My body will lift up
You will not go straight
But I sure not was
If you don't me by now
If you don't me by now

Don't know
Don't
Don't

From the bottom of my chest to my stomach
Goddamn it, my daddy is gone
My daddy's gone

A fallen envy on my heart
Like the words that rock, I made some for you
And we'll send it through

If you don't me by now
If you don't me by now

If you don't me by now
If you don't me by now

Don't know
Don't
If you don't

If you don't me by now
If you don't me by now
If you don't me by now
If you don't me by now

You'll never

If ya'll don't love me by now, ya'll ain't gon never love me

Don't
Don't
