

I Can't Sleep feat. Nika Boon

Big Cyc

Our politician's lies slap in my face
They spit the poison out like a bunch of snakes
Cos all the time I know corruption's going deep
I just can't sleep, I just can't sleep
I just can't sleep, I just can't sleep

I'm walking down the street and my shoes are too tight
And when they say that the mob will rule the hive
Cos when I hear Putin speak I wanna flee
I just can't sleep, I just can't sleep
I just can't sleep, I just can't sleep

I toss and turn my bed's getting hot
And taking all the pills doesn't do the job
I'm staring at the ceiling and counting all the sheep
I just can't sleep, I just can't sleep
I just can't sleep, I just can't sleep, I just can't sleep

My blood is boiling, I wish I could reverse
Sneering laughter on the news, gets on my nerves
I can't give no more my work just seems too cheep
I just can't sleep, I just can't sleep
I just can't sleep, I just can't sleep

I toss and turn my bed's getting hot
And taking all the pills doesn't do the job
I'm staring at the ceiling and counting all the sheep
I just can't sleep, I just can't sleep
I just can't sleep, I just can't sleep, I just can't sleep

I toss and turn my bed's getting hot
And taking all the pills doesn't do the job
I'm staring at the ceiling and counting all the sheep
I just can't sleep, I just can't sleep
I just can't sleep, I just can't sleep, I just can't sleep, I j
ust can't sleep
