

## Angel Leads Me On

Big Head Todd and the Monsters

We keep each other in the air  
And from there we're afraid of falling down  
She don't believe I really care  
Oh, she'll be runnin' as soon as we reach the ground  
But her angel leads me on  
'Til I find her lovin' arms

Just when I think it's safe to doubt  
I turn about and find I've been left behind  
There's only so long I can go without  
Like a fool I shout instead of cryin'  
But her angel leads me on  
'Til I find her lovin' arms

A home sinking in the sand  
It hurts to understand where I went wrong  
So I'll believe with an empty hand  
I'll receive at last what I can't own  
But her angel leads me on  
'Til I find her lovin' arms
