

Dirty Juice

Big Head Todd and the Monsters

You know I get a little peace of mind around that woman.
She's like driftin' and then finding the easy way out.
In case you didn't know she is my caterpillar,
she's my butterfly rolled inside out.
Change in the autumn and the springtime.
All of her colors roll into one.

She's gonna shock me now, when she turn it loose.
She's got my 'lectric house rockin' now, on her dirty juice.
You know I get a little peace of mind around that
Woman, that woman is sure good 'nuff to me.

Someone is always shaking her down,
always scraping her pink limousine.
Taste her kisses sweet as molasses,
from a moonbeam or a Christmas tree.

She's gonna shock me now, when she turn it loose.
She's got my 'lectric house rockin' now, on her dirty juice.
She can't shut me down. I turn it loose.
