

Seven State Lines

Big Head Todd and the Monsters

Just as far and as fast as I can, uh huh
Just as far and as fast as I can

Just as far and as fast as I can, uh huh
Just as far and as fast as I can

From my mean and arbitrary woman
She says she loves me but she don't understand

I'm crossin' seven state lines to get away, uh huh
Seven state lines to get away

Crossin' seven state lines to get away
Seven state lines to get away

And I ain't comin' back no matter
Ain't coming back no matter what she say

If she changes her mind about me
My engine will not stall

If she changes her mind about me
My engine will not stall

When I had stumbled she refused to catch my
When I had stumbled she refused to catch my fall
Oh this ain't no u-turn at all

This old car don't know how to make a u-turn
Don't know how to make a u-turn no

This old car don't know how to make a u-turn
Don't know how to make a u-turn no

Cause when I'm gone girl you know I
You know I'll never get your gas no more
