

Cheat On You

Big & Rich

You better hope another man don't look her way too long
You better hope he don't do all the things right that you've done wrong

If he comes knockin' she'll just turn him down
'Cause she's not the kind of girl that goes runnin' around

But you make her wanna cheat on you
For all the hurtin' that you put her through
She wants to stand by her man but I'm not sure if she can
'Cause you make her wanna cheat on you

She tries to be your everything all the time in every way
She lit the candles, pulled the covers back and put on that lingerie
Then you come walkin' in and you fall into bed
You never say a word or even turn your head
And it makes her...

But you make her wanna cheat on you
For all the hurtin' that you put her through
She wants to stand by her man but I'm not sure if she can
'Cause you make her wanna cheat on you

She's been livin' for a love that keeps letting her down'
Looking for a reason just to hang around

But you make her wanna cheat on you
For all the hurtin' that you put her through
She wants to stand by her man but I'm not sure if she can
'Cause you make her wanna cheat on you
