Look at You

Big & Rich

Baby, when I look at you
With them baby blues
Cutting right through me
You set me on the rewind
Back to the good times
When you couldn't get enough of me

I guess I'm givin' myself away
Sayin' all the things I never did say
I lose myself, there's nothin' else
I could do, baby, when I look at you
Yeah, baby, when I look at you

Last thing I thought I'd see
Was you across the bar from me
And holdin' on to that turkey bottle
Shootin' 'em down and runnin' full throttle

Oh, I can still taste the last time
You and me and nothin' but the tan lines
Keeps running through my mind
On and on and on and on and

Baby, when I look at you
With them baby blues
Cutting right through me
You set me on the rewind
Back to the good times
When you couldn't get enough of me

I guess I'm givin' myself away
Sayin' all the things I never did say
I lose myself, there's nothin' else
I could do, baby, when I look at you
Yeah, baby, when I look at you

Well, I know you know I'm watching
Your low cut on the dance floor rocking
Got the whole place worked up and locked in
With every move so sexy, it's shockin'

Girl, you sure do know how to serve it
The way I did ya, Lord, I deserve it
You know my heart, you know how to hurt it
On and on and on and on and

Baby, when I look at you
With them baby blues
Cutting right through me
You set me on the rewind
Back to the good times
When you couldn't get enough of me

I guess I'm givin' myself away
Sayin' all the things I never did say
I lose myself, there's nothin' else
I could do, baby, when I look at you

Yeah, baby, when I look at you

Well, I could start a tab and run it up
Or close it out and head to my truck
And drive away as fast as I can
And forget we ever loved

Baby, when I look at you
With them baby blues
Cutting right through me
You set me on the rewind
Back to the good times
When you couldn't get enough of me

I guess I'm givin' myself away
Sayin' all the things I never did say
I lose myself, there's nothin' else
I could do, oh, I lose myself, there's nothin' else
I could do, baby, when I look at you
Yeah, baby, when I look at you

Baby, when I look at you
With them baby blues
They're cuttin' right through me
