

# Never Been Down

Big & Rich

I'm a little bit crazy  
I'm a little bit reckless with this life  
Well, I don't worry  
'Cause Heaven's on my side

When you're walkin' on water  
The waves, they try to knock you down  
You'll beg and borrow  
To go another round

Throw the cards on the table  
Hit me once then hit me again  
I'm not afraid 'cause I'm able to win  
It's like I've never been down before  
Like I've never been down  
It's like I've never been down before  
Like I've never been

Too afraid to risk it  
Double down and bet it all  
'Cause if you're ever gonna win it  
You got to make the call

Throw the cards on the table  
Hit me once then hit me again  
I'm not afraid 'cause I'm able to win  
It's like I've never been down before  
Like I've never been down  
It's like I've never been down before  
Like I've never been

Inside the black or red, I never lose my head  
As long as I get to play  
You'll never see me frown, no matter up or down  
I'm still in the game

Throw the cards on the table  
Hit me once then hit me again  
I'm not afraid 'cause I'm able to win  
It's like I've never been down before  
Like I've never been down  
It's like I've never been down before  
Like I've never been down
