

Jesus Is Your Friend

Big Tent Revival

It takes the biggest thing that's got you down
And stand it up right next to God
Anyone can see who's bigger now
It don't take no astronaut

So don't be scared or afraid, 'cause Jesus is your friend
Oh, it's alright, He'll be there in the black of night
Oh it's okay, He'll be there in the light of day
Love will never end if Jesus is your friend
If Jesus is your friend

When I was a little baby
They used to leave the night light on
Now there's a light that lives inside of me
That even makes a baby strong

So don't be scared or afraid, 'cause Jesus is your friend
Oh, it's alright, He'll be there in the black of night
Oh, it's okay, He'll be there in the light of day
And love will never end if Jesus is your friend
Jesus is your friend

How can I get to know this Jesus?
Maybe you're wondering down inside
But he's right here pulling on your heart strings
Won't you come and open wide?

Well don't be scared or afraid, 'cause Jesus is your friend
Oh, it's alright, He'll be there in the black of night
Oh, it's okay, He'll be there in the light of day
And love will never end, Jesus is your friend
Jesus is your friend, Jesus is your friend
Jesus is your friend, So don't be scared
