

# West Virginia

## Big Wreck

So you watch me float around  
For two weeks straight  
And the things you love will drown  
With the things I hate  
Oh well

It's only for a while  
Until I get things right  
Just let me dream all day  
And stay up all night

I know what your saying  
When you're not really talking right  
Who are you fooling?

'Cause I'm going forwards and  
Looking backwards Virginia  
I'm going forward  
And looking back West Virginia

You live you love you learn  
You lose you gain  
And you know you'll never win  
You can't even quit the game

You know you'll never win  
You can't even quit the game  
You know you'll never win  
But you can't even quit the game

I know what your saying  
When you're not really talking right  
And who are you fooling?  
Who?

'Cause I'm going forwards  
And looking backwards Virginia  
'Cause I'm going forwards  
And looking back West Virginia

'Cause I'm going forwards  
And looking backwards Virginia  
'Cause I'm going forwards  
And looking back West Virginia

'Cause I'm going forwards  
And looking backward Virginia  
Cause I'm going forwards  
And looking back West Virginia
