

Falling Down

Bigwig

They teach us to be "ourselves" in a structured society, Fascist, racist police states, sometimes I don't feel very free. And I am falling down. And the system is falling down. They exploit your freedom and they take away your rights, The one they use, They try to abuse, No matter how hard we fight, And I am falling down, And the system is falling down. So stop the hate, Don't segregate, Stop the fighting we're all dying, Stop the preaching and start the teaching, Pull together, make the system better, And I am falling down.
