

My So Called Friend

Bigwig

You always seemed to be there for me but somehow it seemed so superficial some others said you had some bad to say and it hurts me to think that you felt that way so i guess in the end there's wool over my eyes you said that you cared you said that you did it turns out now that's a lie well i'm not surprised just left with tears in my eyes my so-called friend?! and so i don't understand your thoughts and dreams well they're secondhand but when will we end this game your temperamental being is playing with fate my so-called friend?!
