

I Really Don't Care

Bilal

I really don't care, I really don't care
Really don't care, I really don't care

I know I'm not a typical guy, and your friends say I don't have
a chance
But I wonder if you pay them no mind, 'cause it's costing us ti
me
Can you give me a chance to show you why?
We should be forever again, forever again

Ooh lets drive around town, don't really have a place to go
We could lay down by the sea and listen to the ocean's symphony

I really don't care, really really don't care
I really really don't care, I really don't care

Haven't kissed this long in quite some time
Have you ever felt the love like this?
I wonder if you're changing your mind
It feels like ecstasy the second time
Loving you forever again, forever again
You'll never be blue
