## **Satellites**

Just another day In another life On the satellite Watching the world Watch people as they Do what they do to people

So what did we do? And what can we do? And how did this happen? 'cause it's not what I remember When I left you from the other time No, it's not what I remember Should have never opened up your eyes

So what did we do? And what can we do? And how did this happen? (hooohhh!) why the hell did I get you high? I believe in this love Why the hell did I let you? Why the hell did I get you?

Just another day On the satellite, time traveling Watching the corrupt people As they corrupt other people

So what did we do? And what can we do? And how did this happen? (hooohhh!) why the hell did I get you high? I believe in this love Why the hell did I let you? Why the hell did I get you?

Just another day On the satellite, time traveling Watching the corrupt people As they corrupt other people

So what did we do? And what can we do? And how did this happen? Ohhh.... why the hell did I get you high? I believe in this love Why the hell did I let you? Why the hell did I get you? Ohhh...

Hiiiiiiiiiigghhhhhh!!!!

Just another day In another life On the satellite Watching the world Watch people as they Do what they do to people ...
