

Make Love to Your Mind

Bill Withers

I love the story in your love song
Building them castles in your mind
Come down here looking for a feeling
Someday I know you're gonna find

I wanna lay down there beside you
But first we ought to take some time
Before I make love to your body
I wanna make love to your mind

I wanna feel good just like you do
(Feel good) I haven't
Loved in quite some time
(Feel good) I had some
Phases that I been through
Where I've just loved and left behind

I'm just too tired of feeling guilty
I don't wanna be unkind
But before I make love to your body
I wanna make love to your mind

I wanna make love to your mind
I wanna make love to your mind
Before I make love to your body
I wanna make love to your mind

I wanna feel good just like you do
I haven't loved in quite some time
Lord, I had some funny phases
That I been through, no, no
Where I've just loved and left behind

I'm just too tired of feeling guilty
I don't really wanna be unkind
But before I make love to your body
I wanna make love to your mind

(To your mind, to your mind)
(To your mind, to your mind)
(To your mind)

I love the story in your love song
Building them castles in your mind
Come down here from somewhere
Looking for a feeling
Someday I know you're gonna find

See, I wanna lay down there beside you
But first we ought to take some time (time)
Before I make love to your body
I wanna make love to your mind

To your mind
(I wanna make love) to your mind
To your mind
(I wanna make love) to your mind

(I wanna make love to your mind)...
