We Could Be Sweet Lovers

Bill Withers

Sweet life, it just can't be paradise
But if you think it's alright
Ow baby, we could be sweet lovers in the night
I'd be faithful and I could treat you nice
Ow baby we could be sweet lovers in the night
If you think I might
be someone you could like
What if you were my lover?

I could spend my lifetime holding on to you, my lover I could spend forever holding on to you

Spend my every nighttime holding on to you, my lover
'Til the end of never holding on to you

Sweet life, just can't be paradise

But we can make it quite nice

Ow baby we could be sweet lovers in the night

If you think I might

Be someone you could like

What if you were my lover?

I could spend my lifetime holding on to you, my lover I could spend forever holding on to you Spend my every nighttime holding on to you, my lover 'Til the end of never holding on to you Sweet life, just can't be paradise But we can make it quite nice Ow baby we could be sweet lovers in the night If you think I might Be someone you could like What if you were my lover?
