

Whatever Happens

Bill Withers

Whatever happens
We'll have some love along the way
But it ain't easy
We'll look for some words of love to say

And smile, mmm
And be happy, anyway
And we'll kiss before we say goodnight

And whatever happens
There'll be some times along the way
When it ain't easy
It just can't be sunshine every day

We'll smile, mmm
And be happy, anyway
And we'll kiss before we say goodnight

I've got you in my life
Together we can reach the higher ground
We'll be alright, just as long as you're around
Girl, I won't let you down

Whatever happens
There'll be some good times and some bad
But it ain't easy
Let's just remember the good times that we had

And smile, mmm
And be happy, anyway
And we'll kiss before we say goodnight

And we'll kiss before we say goodnight
