Why, Why, Why

Billy Currington

I've been your lover, I've been your friend I've been your faithful one-woman man I've been your diamond in the rough Now you say you wanna polish me up

Why, why, why do you wanna change me now? Ain't I the one you loved everything about? You might start missin' the old me around So why, why, why do you wanna change me now

I remember you used to like Walkin' with me on my wilder side My kind of crazy turned you on Do you really want that part of me gone?

Why, why, why do you wanna change me now? Ain't I the one you loved everything about? You might start missin' the old me around So why, why, why do you wanna change me now

Why, why, why Ain't I the one? You might start missin'

Why, why, why do you wanna change me now? Ain't I the one you loved everything about? You might start missin' the old me around So why, why, why do you wanna change me now
