

All Over the World

Billy Ocean

If we could find the answer
To the problem of today
In tune with one another
Then we could find a way
But we're looking on the outside
When we should look within
If every man would judge himself (every man)
That's when we'll begin

We complain
If nothing's gettin' down
I look forward to the day
When we could live as one, oh

Imagine if we all could live
In peace and harmony
(All over the world)
All over the world
If we could have the unity
We could love so peacefully
All over the world
All over the world

(All over, all over, all over
All over, all over, all over)

And I wake up every mornin'
Hopin' things will change
I know this dream's within our reach
Yeah, I don't find it strange
With all the negativity
It makes me wonder why
It's enough to break your heart
It can make a grown man cry

Oh, there's away
If we could only see
Let's do it for the children (for the children)
It's up to you and me, mmh

Imagine if we all could live
In peace and harmony
All over the world
All over the world
If we could have the unity
We could love so peacefully
All over the world
All over the world, yeah-yeah

(All over, all over, all over)
Let's do it for children
We'll do it for the children, yeah

Heavenly Father
My eyes behold
Every picture
Has a story to be told

There's no smoke without fire
All the glitters, not gold
We need peace, and love, and justice, mmh
All over the world

Imagine if we all could live
In peace and harmony
All over the world
All over the world
(Sing it, children)
If we could have the unity
We could love so peacefully
All over the world
All over the world, yeah-yeah

Imagine if we all could live
In peace and harmony
All over the world
(Imagine if we could in unity
And harmony)
If we could have the unity
We could love so peacefully
All over the world
(Imagine if we could live so
Peacefully, all over the world)

Imagine if we all could live
In peace and harmony
All over the world
(Brother to brother, sister to sister
Everybody lovin' one another)
If we could have the unity
We could love so peacefully
All over the world
(All over, all over, all over)
(All over)

Imagine if we all could live
In peace and harmony
All over the world
(Brother to brother, sister to sister
Everybody lovin' one another)
If we could have the unity
We could love so peacefully
All over the world
(All over, all over, all over)
