

# Nothing Will Stand in Our Way

Billy Ocean

We can right the wrong  
We can keep it strong  
We can watch it slip away  
We can take the time  
We can make it right  
We can do it every day

All we need is understanding  
And the chance to make it right  
It can happen overnight, yeah

Oh, there's nothing without a reason  
Well, every night I hope and pray  
We won't let nothing come between us  
Nothing will stand in our way

With a little love  
And the moon above  
We will keep on holding on  
Saving what we've got  
'Cause there's such a lot  
That can happen when it's gone

Oh, we're the perfect combination, mmh  
We can always find our way  
It's the things we do and say, yeah-yeah

There's nothing without a reason  
Well, every night I hope and pray  
We won't let nothing come between us  
Nothing will stand in our way

Look around and I'll be near you  
You'll never be alone at night, oh  
Won't give you reason to question what I do  
'Cause we're gonna be alright

There's nothing without a reason  
Every night I hope and pray  
We won't let nothing come between us  
Nothing will stand in our way
