

All Of My Life

Billy Preston

All of my life I'm going to
Love you baby, love you baby, love you
All of my life I'm going to
Love you baby, love you baby, love you
All of my life I'm going to
Love you baby, love you baby, love you

I'll never leave you even if you never believe in me

All of my life I'm going to
Love you baby, love you baby, love you

My love is here even when you hurt me, girl
I love you still
And if you desert me, baby
I always will be right here

All of my life I'm going to
Love you baby, love you baby, love you
All of my life I'm going to
Love you baby, love you baby, love you
All of my life I'm going to
Love you baby, love you baby, love you

And there's no question about the love I have in my heart for you, oh girl

All of my life I'm going to
Love you baby, love you baby, love you

From here on out you don't have to worry, girl
Without a doubt love me without love for me

All of my life I'm going to
Love you baby, love you baby, love you
All of my life I'm going to
Love you baby, love you baby, love you
All of my life I'm going to
Love you baby, love you baby, love you

I'll never leave you even if you never believe in me

All of my life I'm going to
Love you baby, love you baby, love you

My love is there even when you hurt me, girl
I'll love you still
And if you desert me, baby
I always will be right here

I'm going love you all of my life
