

So Far

Billy Walker

So far I've been able to keep you out of my mind
So far I've been able to leave my blues behind
But they're beginning to show yet no one knows so far

So far I've been able to weep all to myself
So far I've been able to keep my heart off the shelf
But it's beginning to show yet no one knows so far

So far I've hid the pain I feel I just pretend that your mine s
till
You're unaware that I still care and darling always will

So far I've been able to laugh when I ought to cry
But it's beginning to show yet no one knows so far

So far I've hid the pain I feel I just pretend that your mine s
till
You're unaware that I still care and darling always will
So far I've been able to laugh when I ought to cry
But it's beginning to show yet no one knows so far
