

Wide Awake

Biohazard

Pain inside me is taking over again
Wide awake I open my eyes into a nightmare of a life that I des-
pise I gotta,
break it down to the bare essentials 'cause life's too short to
be sentimental.
Twisting around inside my head so many crazy visions - am I bet-
ter off dead?
Filled with dread - gun under the bed to clip all the motherfuc-
kers trying
to keep me down, I ain't fuckin' around.
Wide awake my eyes are open I can't breathe my heart is choking
and I can't speak
the words unspoken and I can't believe my life is broken again.
.. (my life is broken)

Keep trying to tell myself "everything will be OK, everything w-
ill go my way"
'till life steps in and slaps on the strangle, tears flow and f-
ists start to mangle.
I wake up screaming everyday, nobody pays attention when I'm wr-
ithing in pain,
I got a glitch in my brain I gotta break free from anxiety, I g-
otta let go of life
'cause it's killing me

[Chorus:]

Wide awake my eyes are open I can't breathe my heart is choking
and I can't speak
the words unspoken and I can't believe my life is broken again.
..
My eyes are open, my heart is choking, on words unspoken, my li-
fe is broken again

I can't believe my life is broken apart again, I can't conceive
my time was never
well spent, sick of everybody talking about the things they nev-
er do, motherfuckers
talking shit about who?
YOU!!
[Lead]

Pain inside me is taking over again

[Chorus]

How many times can you ask for a chance and expect everybody to
keep giving it,
forgiving it?

Realize this is the last time to waste away, deteriorate, decompose, and decline
