

No Escape

Birdpen

There is no escape, there's no window
There is no escape, nowhere to go
There is no escape, I see it on the news
There is no escape, had to roll in.
There is no escape, the weather's frightening
There is no escape, sky-scrapers
There is no escape, machines making
There is no escape, the phone's calling me.

There is no escape, your information
There is no escape, they're on direction
There is no escape, we're science fiction
There is no escape, we'll tell the truth.

There is no escape, from what you're drinking
There is no escape, expends of living
There is no escape, health mistakes chance
There is no escape, we're all ugly.

There is no escape, protect your children
There is no escape, from the future
There is no escape, they spend their savings
There is no escape, to land their pockets.

There is no escape, just do one thing
There is no escape, go and live it
There is no escape, go and feel it
There is no escape, go and live it
There is no escape, no, no.
There is no escape, no, no.
There is no escape, no, no.
There is no escape, no, go.

Escape, escape
There is no escape
Escape.

The future is nothing, just long gone, forgotten
We're living in hard days, awaiting in sorrow
'cause we are the faces cold like this blinding
There's nothing all broken, there is no escape.
