

# Sorrow

Birdpen

I feel this love turning in  
It's lifting me up inside, lifting me up inside.  
I know the time doesn't last  
You gotta make it work each day and keep that pain away.

And sorrow, don't come here no more  
And sorrow, don't come here

I will head into your light  
With no sentiments of loss on my way,  
Just my heart and hands holding a brand new day.

A brand new day

And sorrow, don't come here no more  
And sorrow, don't come here
