

Stay

Birds of Tokyo

Hate me
I'm the one you need
I want you to feel good
I want you finger deep
Want you to taste it
I got to make you mine
I want you to stay here
I want you all the time

Show me
Tell me what you need
I can be your best friend
I can be the feed
I want you to feel it
Just a little more
I want you to stay here
I want you by my throne
Get ready get on it again

Let me
Tell you what I see
You've got the whole world
Begging at your feet
Now is the right time
I got all I need
Hey do you want this
Hey do you want to stay

I know this is where it is
I've got the best thoughts
Running through my head
You make the whole world
Better that it is
You've got the best smile
And the sweetest kiss
Get ready get on it again
Get ready get on it again

Hate me
I'm the one you need
I want you to feel good
I want you finger deep
Want you to taste it
I got to make you mine
I want you to stay here
I want you all the time

Save me another dream
Don't leave me asleep
I want you to feel it a little more
I want you to stay
here forever more
Get ready get on it again
Get ready get on it again
Stay, stay, stay, stay
