

Weight of the World

Birds of Tokyo

I started out with no path in mind
I was young to the world
How was I to know better?

I started out with no path in mind
Free to make all mistakes
Gotta bleed to get better, and

I will not wait this life out
I will not carry the weight of the world
I will not wait, this starts now
I will not carry the weight of the world

Carry the weight of the world

I've got to carry your burning heart
Like a siren it screams
Telling me to keep running
I've got to carry your burning heart
It's so heavy to hold but it's all that I've ever known

I will not wait this life out
I will not carry the weight of the world
I will not wait, this starts now
I will not carry the weight of the world

I won't - I will not
I won't - carry the weight of the world
I won't - I will not
I won't - carry the weight of the world

This could be all that we needed
A chance to be part of the fight
Yeah this could be all that we needed
We stay to the end we remember tonight

This could be all that we needed
A chance to be part of the fight
Yeah this could be all that we needed
We stayed to the end we remembered tonight

(carry the weight of the world)

I won't - I will not
I won't - carry the weight of the world
I won't - I will not
I won't - carry the weight of the world

Carry the weight of the world
Carry the weight of the world
