

Breathe Out

Biting Elbows

My mind belongs to you
I do care for reason
Our future is overdue
But you don't care enough to listen
You are what I look forward to
I see you everywhere
I know you've lived without a clue
You watch while I stare

[Chorus]
"Breathe out,"
You whisper sweetly
Without you I dare not go on
Time will not repair me quickly
You are completely gone
Sometimes the heart don't give a damn
At others, it wears and tears
I think of all we've yet to do
And how it's all hot air

[Chorus]
"Breathe out,"
You whisper sweetly
Without you I dare not go on
Time will not repair me quickly
You are completely gone

Breathe out
Breathe out
Breathe out
Always in love
Breathe out
Always in, always in
