I'm the sickest rapper on this f\*cking Earth  
Say my name, I eat your face like f\*ckin' Lurch  
Mentally ill from Amityville with thousand pills (Mentally ill)  
Go on your grill, with the steel you get killed  
Oasis, they hate this, I got the latest (Latest!)  
Surviving R.Kelly, I was locked in the f\*ckin' basement  
Tied up, fired up they choked me up  
I was asleep 'til Joe Budden's woke me up  
Outta my mind like Kanye

I'm sicker with verses

This clip is dispersin', you entering hearses  
Then into the church and into the dirt  
Your body will fill up with worms then  
I am psychotic, erotic, bionic  
High off the chronic and I don't think logic  
And I'm in your closet, I'm hidin' and stalkin' as soon you walk in  
I'm carving your heart up, don't start up that crime  
Bitch I'm a monster, your family dyin'  
Start wit' your daughter then send her to slaughter  
But before I off her, I'm in her vagina (I'm in her vagina!)  
I am nothing like Freddy (Freddy!)  
They be I'm much watched than Jason (Jason!)  
I'll cut you up with machetes (Machetes!)  
Then I should wear all your faces  
'Cause I am just leatherface then pray you won't make it safe  
But sorry to say you won't get away  
But don't be afraid you won't be okay  
Well okay!  
Sorry I lied, did a side of the suitcase  
Chop her f\*ckin' body, won't find her for two days  
I'ma about to pop a molly and go walkin' with two case  
And shoot your new boo with a cute face

Listen, it's 11.30 p.m. and you 'bout to fall asleep and I'm your window wit  
h a mask on (Shh! Huh?)  
I proceed to climb in through the dining room with a machete that I'm 'bout  
to shove into your backbone  
Then cut it down into your asshole, I bloody up your f\*cking bathrobe (Bitch  
)  
And if your wife is awake and she witnessing what I'm doing

(Oh my god, no, no, no!)  
I kill her then I fill her p\*ssy up with tadpoles  
Yes I'm that gross (Yeah)  
When it rains it pours  
Especially when my blade is pulled  
The deeds paid in full  
I'm butt naked in your neighbors pool  
I stay stunting while I'm face f\*cking a decapitated skull  
You ever seen that before? (No!)  
Freak nasty gore  
I need ass galore

So please ask the lord  
For three trashy whores with knee pads of course  
Who deep throat while my balls swing back and forth  
I like it like that (Yeah)  
Bitch don't you try to fight back (No)  
All you now realizing I have (What?)  
A can of lighter fluid, I'ma jam it right into your f\*cking cleavage area and damn it I'ma light match hmm  
Leatherface, leatherface  
Pulling up on you inside a f\*cking Chevrolet  
And don't you try to run away I'm a easily cut the chase and probably hit you with a motherf\*cking hand grenade  
Nobody saw my offense  
I got corpses hanging in the attic with scars on they ribs  
Body parts in the fridge, so pardon the stench  
For breakfast I ate someone's heart with some grits  
I don't want cops to barge in my crib  
You don't know how retarded I get  
I pushed a burning car off a bridge  
With a family inside it, I get too excited  
With me there's no bargaining bitch  
Leatherface

People want to label me a slasher  
Nah I'm a surgeon, make a facial mask from his fascia  
Slice him into parts, dissecting is a art  
I calculate the angle of his zygomatic arch  
But this is my dilemma  
How to rip the bone tissue  
When I damage the lamella, love the taste of the patella  
Add some peanut butter, Nutella, and you got something stellar  
As I'm cooking out the Salmonella down inside my cellar  
Picking out a chainsaw to cut sternum  
Do I use the MS 880 or my Husqvarna  
The stomach churner, your guts burn up  
But making a new mask is only thing I'm concerned of  
That's how Dr Khan do it, like Thomas Brown Hewitt  
Needle-driver to the epidermis, suture 'round through it  
Compression of the blood vessel, oozing off fluid  
Poke the eyeballs out the sockets, let my eyes view it  
Your face on my body lookin' at your body  
You called me nobody, I sawed your whole body

Mop your blood stains with a broom  
While I am delivering your liver to my living room  
Consider no amount of money, or a pot of gold  
That compares to your heart and lungs sitting on my wall at home  
Chewing every bit of collagen inside your collar bone  
That's for dinner, for dessert your brain on my waffle cone

We get to slicing and stabbing  
We got no mask with axes  
Leatherface  
We will pull up on your avenue  
Slaughter your family like animals  
Leatherface  
We eat your body like cannibals  
Run in the woods, we'll come after you  
Leatherface  
Sorry we won't stop attacking you  
Chop you and f\*cking kidnap you bitch  
Leatherface, leatherface, leatherface  
Leatherface, leatherface, leatherface  
Leatherface, leatherface, leatherface  
We eat your body like cannibals  
Run in the woods, we'll come after you  
Leatherface  
Sorry we won't stop attacking you  
Chop you and f\*cking kidnap you bitch
